

Staff Paging

STAFF PROOF ALERT SYSTEM

Speed up communication between the kitchen and wait staff without all the yelling, bells and noise. Create a more efficient and relaxed atmosphere for your customers and staff by discreet and effective vibration alerts from your Boomerang Paging system.

FEATURES AND BENEFITS

- Quiet, seamless communication between kitchen and staff
- Rechargeable pagers improve efficiency
- Multiple page options including all-page
- Strong, silent, vibration alert ensures no missed calls
- Alpha-numeric pagers available for task-specific calls

HOW IT WORKS

The Boomerang Waiter Paging system has your staff coming back to the kitchen every time. The strong, silent vibration ensures that they get the message and return to collect their meals without disturbing your customers. Our Waiter Paging systems contribute to a more relaxed dining experience for your guests, ensuring increased satisfaction levels.

1. Chef paging waiter
2. Waiter receives silent alert
3. Ready to be delivered by waiter
4. Delivery of hot food to table
5. Happy Customers = Happy Staff

WHY YOU WILL CHOOSE BOOMERANG PAGING

Boomerang provides the ideal solution for Waiter Paging Communications in all food service outlets. The Boomerang Waiter Paging System has been developed to provide seamless communications between kitchen and waiter staff. Your staff can now spend up to 75% more time on the dining floor up-selling and attending to your diners' requirements! Waiters will return to the kitchen on a demand basis only, after being alerted via the silent vibrating pager.
