# MatrixPaging

**USER REPLACEABLE BATTERIES.**  
Simple to swap out for new battery. **(2) AAA** rechargeable battery.

**MULTIPLE ALERTS.**  
Stronger Vibrations, light or sound that will be sure to get the attention of the customer.

**EXTRA-LONG RANGE.**  
Can be reached with a potent transmitter to penetrate walls and allow great coverage, more than **1 MILE**.

**EASILY EXPANDABLE SYSTEM**  
The paging system can grow as your business grows. Adding pagers to the system is simple.

**Matrix Paging System** has the most similar method and look to the traditional paging systems.

This paging system set a new standard in the paging industry with its premium technology and tough structure.

The quality construction combines reliability with durability.

With great features, the **Matrix Paging System** has set a high standard in performance that the conventional pagers can't match.

Locating guests has never been easier with **Pagertec Matrix System**. The new rubber bumpers make the pager much more durable and more resistant than any other pager to accidental drops and falls.
